

# PC-3000

## PC-3000 SSD DATA RECOVERY EXPERT TRAINING

seminar program

1. Characteristics of data storage in SSD
2. Software and hardware implementation of SSD
3. PC-3000 SSD utility. Components. Features
4. Technique of primary diagnosis and determination of the nature of malfunction
5. Two approaches of data recovery from SSD

### PRACTICE:

#### Solving of real cases on damaged drives

- ▶ Indilinx Utility
- ▶ Van Gogh Utility
- ▶ Van Gogh2 Utility
- ▶ Intel Postville Utility
- ▶ Jmicron/Toshiba Utility
- ▶ Samsung Utility
- ▶ Seagate Utility
- ▶ OCZ Utility

The real damaged drives will be examined during the practice. Under the guidance of an experienced tutor you will acquire all the necessary skills and knowledge for data recovery and repair of modern SSD.
